Work Experience

Product Designer NestAid

REMOTE, USA | DEC 2025 - PRESENT

- Shipped a fully functional web platform in 1 week using vibe coding with Claude and Cursor, independently building and deploying production-ready screens without engineering support, eliminating the design-to-handoff cycle entirely.
- Built the end-to-end scheduling flow using Claude and Cursor, enabling agency admins to fill shifts in 5 minutes and cutting manual coordination by 91%.
- Defined MVP scope by running discovery research using stakeholder interviews and usability studies, translating findings across elderly users and family caregivers into a prioritized product roadmap that guided 0-to-1 build decisions.
- Benchmarked 6 senior-care platforms, identifying 15+ usability and feature gaps that directly determined which capabilities launched first and how the product was positioned against competitors.

UX Design Intern Inverse Paradox

PHILADELPHIA, USA | AUG 2025 - DEC 2025

- Designed 30+ responsive web screens across 3 client verticals, translating research insights into scalable WordPress-based implementations.
- Restructured site navigation architecture using user behavior insights, reducing time-to-primary-CTA by 18% within the first release cycle.
- Collaborated with 3 developers and 2 product managers across 4 sprint cycles, reducing design revision loops by clarifying interaction states and edge cases upfront.
- Conducted heuristic evaluations and usability audits to identify drop-off points and optimize conversion pathways.

UX Designer Vivek Kadecha Designs

INDIA | OCT 2021 - NOV 2023

- Led end-to-end UX strategy and UI execution for client-facing web platforms, aligning user needs with business conversion goals.
- Designed and launched a flagship website that increased inbound project inquiries by 50% and achieved a 6-minute average session duration.
- Built and operationalized an atomic design system (design tokens, components, reusable variants), reducing design-to-development turnaround time by 45%.

Selected Projects

Usher Mobile App Thesis Capstone Project

- Led UX research and design of an AI-powered academic app integrating Canvas and library systems; validated through 13 interviews and 3 pretotyping experiments.
- Achieved 92% task success and 75% user preference for Usher over Google by personalization, increasing engagement with course aligned resources.

About Me

Product Designer with 2+ YOE shipping accessible, AI-informed digital products across SaaS and agency environments. Combines end-to-end product design with the ability to independently build and deploy production-ready interfaces using vibe coding.

Skills

User Research (Qualitative & Quantitative), Usability Testing, Information Architecture, User Flows, Wire framing, Prototyping, Design Systems, Interaction Design, Accessibility (WCAG 2.1), Heuristic Evaluation, User Interviews, Stakeholder Interviews, A/B testing, User-centered design, Data analysis, Agile product environments

Tools

Figma	Cursor
Miro	HTML5
Adobe CC	CSS3
Sketch	JavaScript
Axure	React (Basic)
Framer	WordPress CMS
Zeplin	Lovable
Hotjar	UserTesting.com
Web flow	Square space

Education

Thomas Jefferson University

JAN 2024- DEC 2025 | PA, USA

Masters in User Experience Design (3.95 GPA)

Gujarat Technical University

AUG 2014- MAY 2019 | GUJ, INDIA

Bachelors of Architecture (3.6 GPA)

Certificates

- Google UX Design Professional Certificate (Coursera)
- GenAI for UX Designers (Coursera)
