

SWETA DEVNANI

Product Designer

Philadelphia, PA | (267) 221-4035 | swetaux@gmail.com | [linkedin.com/in/sweta-devnani](https://www.linkedin.com/in/sweta-devnani) | [swetadevnani.com](https://www.swetadevnani.com) (portfolio)

PROFESSIONAL SUMMARY

Philadelphia-based Product Designer with experience delivering end-to-end product experiences, equal parts product thinker and pixel perfectionist. Experienced shipping polished, high-fidelity work across 0-to-1 builds, multi-client agency environments, and research-led projects, with a builder's mindset that thrives in fast-moving, ambiguous settings. Actively uses AI tools (Claude, Cursor, Midjourney) to accelerate ideation, research synthesis, and prototyping. Passionate about designing for underserved populations, with direct experience building civic products that give overlooked users real access and agency.

CORE COMPETENCIES

End-to-End Product Design (0-to-1) · High-Fidelity Prototyping & Visual Craft · Motion Design & Micro-Interactions · Design Systems & Component Libraries · Figma (Variants, Variables, Dev Handoff) · AI-Assisted Design (Claude, Cursor, Midjourney) · User Research & Synthesis · Cross-Functional Collaboration · Mission-Driven Design for Underserved Users · Agile & Builder's Mindset

EDUCATION

Master of User Experience & Interaction Design | Thomas Jefferson University | Philadelphia, PA Jan 2024 – Dec 2025
GPA: 3.9 / 4.0

Bachelor of Architecture | Gujarat Technological University | Gujarat, India Aug 2014 – May 2019
GPA: 3.6 / 4.0

SELECTED PROJECT

Usher — Academic Resource Discovery System | Thesis Capstone, Thomas Jefferson University | 8 Months

- Designed a complete product experience, including user flows, information architecture, and high-fidelity Figma prototypes, grounded in 12 structured user interviews and Miro-based affinity mapping across 6 departments.
- Achieved a 92% task success rate and 75% user preference over Google in usability testing with 5 participants.

PROFESSIONAL EXPERIENCE

UX Design Intern | Inverse Paradox | Philadelphia, USA

Aug 2025 – Dec 2025

- Designed 30+ responsive screens across 3 client verticals in Figma, collaborating directly with developers and PMs across 4 agile sprints; documented interaction states, edge cases, and component variants upfront to reduce revision loops and accelerate handoff.
- Applied Hotjar behavior data to restructure visual hierarchy and navigation across 3 client platforms, improving time-to-primary-CTA by 18% within the first release cycle; presented design rationale and recommendations directly to stakeholders.

Designer | Vivek Kadecha Designs | Gujarat, India

Oct 2021 – Nov 2023

- Led end-to-end design execution for 15+ residential, commercial, and hospitality projects, translating stakeholder requirements into concepts, reviews, and final deliverables.
- Streamlined coordination and procurement workflows, reducing project delays by up to 30% through tighter tracking, clearer dependencies, and vendor alignment.
- Sustained 90%+ client satisfaction via structured presentations, decision documentation, and expectation management, resulting in repeat work and referrals.

ADDITIONAL EXPERIENCE

Product Designer Volunteer | NestAid | Remote, USA

Dec 2025 – Present

- Owned the entire design process for a 0-to-1 product, including discovery research, user flows, wireframes, and high-fidelity Figma prototypes, and leveraged AI tools (Claude, Cursor) to independently ship a fully functional web platform in 1 week without engineering support, eliminating the design-to-handoff cycle entirely.

UX Designer (Volunteer) | Code for Philly | Philadelphia, PA

Jan 2026 – Present

- Designing UX for a civic mental health tool serving users with bipolar disorder, conducting user research with 6 hard-to-reach participants recruited through grassroots outreach, and synthesizing findings into structured interaction flows that directly shaped MVP decisions.

Exam Operations Coordinator (Student Staff) | TJU, Accessibility Services Office | Philadelphia, PA

Aug 2024 – Dec 2025

- Redesigned and optimized the exam procurement workflow end-to-end, identifying process gaps and implementing systematic improvements that increased throughput and reduced errors in scheduling and delivery for students requiring academic accommodations.
- Managed full-cycle coordination of 800+ accommodation exams per semester, including scheduling, logistics, and on-day execution, maintaining accuracy and reliability across all sessions.
- Authored comprehensive process documentation and standard operating procedures for all exam workflows, enabling repeatable operations and reducing onboarding friction for incoming staff.

CERTIFICATIONS

- GenAI for UX Designers (Coursera), 2026
- Design Thinking in the Age of AI (LinkedIn Learning), 2026
- Google UX Design Professional Certificate (Coursera), 2025

SKILLS & TOOLS

Design: Figma (Component Libraries, Variants, Variables, Auto Layout, Prototyping, Dev Handoff), Adobe Photoshop, Adobe Illustrator, Adobe After Effects (Motion), Framer, Sketch, Axure, Zeplin, Miro, Webflow

AI Tools: Claude, Cursor (Vibe Coding), Midjourney, ChatGPT, Gemini

UX Practice: User Research (Qualitative & Quantitative), Usability Testing, Information Architecture, User Flows, Wireframing, Design Systems, Accessibility (WCAG 2.1), Heuristic Evaluation, Affinity Mapping, A/B Testing, Agile Sprints

Technical: HTML5, CSS3, JavaScript (Working Knowledge), Hotjar, UserTesting.com, WordPress CMS
